FARMERS
<u>FREE</u>
RECYCLING SERVICES
For Bale Wrap & Silo Covers <u>ONLY</u>

<u>3 Simple Steps to a Free Service</u>

Step 1) Around 8 farmers group together and arrange to provide as much used bale wrap and silo covers to one collection point with easy access.	**Step 2)** Register your group with Solway by sending details of who is participating and an estimate of how much waste plastic to expect.	**Step 3)** Arrange a convenient date with Solway when your waste plastic will be ready for collection. Solway will collect free of charge and provide certification to each farmer.

Information Required When Registering

a) Main organisers details
b) Where is your proposed collection point
c) How many farmers in group
d) Approximately how much plastic will be there to collect
e) When will it be ready for collection

Notes: Free collections will start from spring 2012 and we will collect a set area at a time, going from collection point to collection point by using small lorries with self loading grabs which then takes the waste for bailing before onward movement for recycling. So, let other farmers know about this new FREE service as the more farming groups in your area participating, the more sustainable this collection model will be. We are also able to make this service free by subsidising collection costs with the production of our recycled products. Visit our website www.solwayrecycling.co.uk for full range of agricultural and other products.

Individual farmers can also register online and we will marry them up with their nearest group.

Act Now – Fill in application form overleaf

This service is restricted to certain areas throughout the UK.
