

Solway Recycling Poultry Housing Data Sheet

The below table shows how many average sized birds are available for each of the Solway Recycling Housing products. All sizes are approximate and recommendations have been used in conjunction with DEFRA/ Government guidelines for Caged Hens. The number of birds is based on the government guidelines of 750 cm² per bird. This is just a guide based on Government guidelines, it is up to the customer to decide whether our product is fit for purpose.
